HAZARDOUS WASTE DISPOSAL

Hazardous material and electronic waste cannot be disposed of in your recycling, organics and/or trash containers, nor in the environment, down drains, and/or gutters. The following list includes the most common Household Hazardous Waste (HHW) items.

Multi-Family Residents: For a complete list of acceptable items, drop-off locations, and more information for multi-family residents visit LACitySan.org/SafeCenters or LADPW.org/EPD/HHW.

Businesses: The County of Los Angeles, S.A.F.E. Collection Center takes small business quantities by appointment only. To schedule an appointment, call 1-888-CLEANLA (253-2652) or email srcrd@LACity.org. Large businesses can schedule a hazardous or electronic waste collection, by calling Athens' Customer Service at (888) 336-6100 or visiting AthensServices.com/Customer-Service.

HOW TO HANDLE BATTERIES

It is illegal to place batteries in your waste bins. Batteries should be disposed of as hazardous waste. They can spark fires or create an unsafe environment for waste workers. If properly collected, battery recyclers can repurpose the metal.

Storage tips to avoid short-circuiting and fires:

- Place a piece of non-conductive tape or duct-tape on the ends. **Do not cover the brand name or chemistry of the battery.**
- Store batteries in a container that does not conduct electricity (like plastic, cardboard, or glass).
