OFFICIAL NOTICE

MANDATORY COMMERCIAL ORGANICS RECYCLING

To reduce methane emissions from landfill California Senate Bill 1383 (SB 1383) requires all businesses, schools, and multifamily complexes to subscribe to an organics collection service and must separate into their green organics container all of their green waste, food scraps, and food-soiled paper (100% fiber based).

Further, in accordance with Los Angeles Municipal Code Section 66.03(e), Solid Waste Services Required, *“All commercial establishments and multifamily properties shall have collection services for source-separated recyclables and/or commingled recyclables and Source-Separated Organic Waste”*

To arrange for recycling service please contact our 24-hour Customer Care Center at 1-800-773-2489 and request a waste assessment. Your recycLA service provider will conduct a waste assessment of your property and work with you to determine your optimal level of services for the lowest possible cost. The waste assessment is a thorough walk-through of your property to determine current levels of service, opportunities to increase recycling, establish organics collection, and right-sizing your bins, which means determining the appropriate bin size for your needs as well as selecting the appropriate frequency of service. Remember as you add green bin service you should be able to decrease your black bin service. In addition, as you increase your blue service level you should be able to further decrease your black bin service.

Failure to maintain organics recycling could lead to future fines, in accordance with the requirements under SB 1383.

zero waste • zero wasted water
