Dear recycLA customer,

In July 2017, the City of Los Angeles (City) launched recycLA, a public-private partnership that, for the first time in the history of the City, offers customer-friendly and efficient waste and recycling collection services to commercial/industrial businesses and large multifamily buildings. recycLA will help move the City closer to achieving its zero waste goals through its pioneering waste reduction, reuse, recycling, and recovery programs.

recycLA offers a host of benefits to those who work and live in Los Angeles including but not limited to clean fuel vehicles, recycling at 100% of customer sites, annual landfill reduction targets of one million tons, and recycling infrastructure investment and development.

recycLA also offers a host of benefits to its customers which includes standardized and transparent rates, customizable waste and recycling services, 24/7 customer service support, and enforcement of customer service standards.

As a potential recycLA customer, you are receiving this notice as part of the recycLA customer onboarding process. Commercial and Multi-Family businesses must work with their designated recycLA Service Provider (RSP) for their waste and recycling services. Signing up for recycLA waste and recycling collection services requires a Waste Assessment wherein you will work with your designated RSP to customize your waste and recycling services. Appointments for Waste Assessments can be made by calling LA Sanitation's (LASAN) 24/7 Customer Care Center at 1-800-773-2489.

Please be advised that Commercial and Multi-Family Businesses are required to have waste and recycling collection services in accordance with the Los Angeles Municipal Code (LAMC) section 66.33.2. Failure to subscribe to and maintain active recycLA waste and recycling collection services is a violation of the City's ordinance and may lead to prosecution.

Thank you in advance for your cooperation and participation in the recycLA customer onboarding process. If you would like more information about recycLA, please visit recycLA.com.

ANNOUNCEMENT CITY OF LOS ANGELES

Food Rescue and Materials Reuse in the new recycLA Franchise Program

The new recycLA Franchise Program includes Food Rescue and Materials Reuse Programs for commercial businesses and multi-family residents in Los Angeles.

Your recycLA Service Provider (RSP) will provide Green Bin organic material recycling services to all customers that qualify for and request it. Your RSP is also required to establish a Food Rescue Program that will assist in the collection (“rescue”) of edible food, fit for human consumption, and to create or develop the necessary network for delivering the food to those who need it the most.

40% of all food in the United States is wasted; California alone wastes approximately 6 million tons of food a year. With over one million people in Los Angeles County suffering from food insecurity, the recycLA Program’s food rescue effort is an ethical and environmental necessity.

Additionally, food that is disposed as trash is an incredible drain on resources. Nationally one fifth of our fresh water is wasted on crops that go directly to landfills, and one fifth of a typical landfill is filled with wasted food. Each year, organic waste landfilled in California releases approximately 8.3 million tons of greenhouse gases.

Your RSP will also provide resources to assist in the collection of new and/or used goods and materials that can be reused. Examples of reusable materials include manufacturing overages, discontinued or surplus items, and other gently used items (furniture, clothing, appliances, and more).

If you would like to learn more about the services offered in your recycLA Zone, please contact your RSP.

For questions or concerns, contact the LA Sanitation Customer Care Center at 1-800-773-2489.

OFFICIAL NOTICE

MANDATORY COMMERCIAL ORGANICS RECYCLING

To reduce methane emissions from landfill California Senate Bill 1383 (SB 1383) requires all businesses, schools, and multifamily complexes to subscribe to an organics collection service and must separate into their green organics container all of their green waste, food scraps, and food-soiled paper (100% fiber based).

Further, in accordance with Los Angeles Municipal Code Section 66.03(e), Solid Waste Services Required, *"All commercial establishments and multifamily properties shall have collection services for source-separated recyclables and/or commingled recyclables and Source-Separated Organic Waste"*

To arrange for recycling service please contact our 24-hour Customer Care Center at 1-800-773-2489 and request a waste assessment. Your recycLA service provider will conduct a waste assessment of your property and work with you to determine your optimal level of services for the lowest possible cost. The waste assessment is a thorough walk-through of your property to determine current levels of service, opportunities to increase recycling, establish organics collection, and right-sizing your bins, which means determining the appropriate bin size for your needs as well as selecting the appropriate frequency of service. Remember as you add green bin service you should be able to decrease your black bin service. In addition, as you increase your blue service level you should be able to further decrease your black bin service.

Failure to maintain organics recycling could lead to future fines, in accordance with the requirements under SB 1383.

SB 1383: CALIFORNIA'S SHORT-LIVED CLIMATE POLLUTANT REDUCTION LAW

Tackling Greenhouse Gas Emissions by Recycling Organics Waste

2023 Additional Customer Fees & Charges

The following are fees established by the City of Los Angeles that the recycLA Service Provider (RSP) may charge their customers if they are unable to service the solid waste, comingled recyclables, or organic waste containers for any of these reasons:

Overfilled:

- The solid waste, comingled recyclables, or organic waste materials are observed to extend above the rim of the container and the lid will not completely close.
- The solid waste materials are placed outside of a full container and prevent the container from being safely collected.
✓ **\$34.11 per occurrence**

Overweight:

- The amount of solid waste, comingled recyclables or organic waste material exceeds a collection truck's ability to collect it or creates unsafe conditions for collection personnel.
✓ **\$137.05 per occurrence**

Contamination:

- More than 10% of the material in the blue bin recycling container is solid waste or organic waste.
- More than 10% of the material in the green organics container is solid waste or comingled recyclables.
✓ **\$68.22 per occurrence**

Penalty Assessment

- Before you are assessed any fees for not properly separating your waste, the following steps will be taken by your RSP:
 - 1st instance: Photos will be taken of the non-conforming container. A written courtesy notice will be provided explaining the special collection needs of the non-conforming material and include information of potential fees.
 - 2nd instance: Same as 1st Instance with the inclusion of a contamination fee.
 - 3rd and subsequent instance: Your RSP will have the option of charging the contamination fee or initiating non-collection procedures.
 - 2nd or 3rd instances considered as such if they occur within twelve (12) calendar months.

Hazardous, Radiological or Biochemical Waste Contamination:

- State law prohibits the disposal of hazardous waste and certain electronic waste in the solid waste, comingled recyclables, or organic waste containers.
✓ **\$137.05 per occurrence**

Bulky Waste:

- Materials which are too large to be placed in the black bin.
✓ **\$40.93 per item**
